Vai no guia de instalação:

Documentation

All documentation is available on the [Wiki Pages](#), we encourage you to read it. If you are new start with the [Installation Guide](#). To update the package consult the [Updating Guide](#).

Dentro da pasta do Laravel instala o pacote laravel-adminlte:

1. On the root folder of your **Laravel** project, require the package using composer:

```
composer require jeroennoten/laravel-adminlte
```

2. Install the required package resources using the next command:

```
php artisan adminlte:install
```

Dentro da pasta do Laravel instala o pacote do laravel/ui:

```
composer require laravel/ui
php artisan ui vue --auth
```

Em seguida executa o comando: “**npm install && npm run dev**” para que seja instalado os pacotes via npm.

```
C:\xampp\htdocs\projeto-modelo>php artisan ui vue --auth
Vue scaffolding installed successfully.
Please run "npm install && npm run dev" to compile your fresh scaffolding.
Authentication scaffolding generated successfully.
C:\xampp\htdocs\projeto-modelo>npm install && npm run dev
```

Caso ocorra o erro abaixo:

```
npm WARN optional SKIPPING OPTIONAL DEPENDENCY: fsevents@2.3.2 (node_modules\fsevents):
npm WARN notsup SKIPPING OPTIONAL DEPENDENCY: Unsupported platform for fsevents@2.3.2: wanted {"os":"darwin","arch":"any"} (current: {"os":"win32","arch":"x64"})

   Finished. Please run Mix again.

npm ERR! code ELIFECYCLE

```

Solução: “**npm cache clean --force**” e depois “**npm update**”

Caso queira trocar as views de autenticação do Laravel para o padrão do adminLTE:

Then, you can make the view replacements executing the next artisan command:

```
php artisan adminlte:install --only=auth_views
```

Na pergunta tem que responder “yes”

Pronto, agora é só colocar essas diretivas na view home do Laravel

```
@extends('adminlte::page')

@section('title', 'Dashboard')

@section('content_header')
    <h1>Dashboard</h1>
@stop

@section('content')
    <p>Welcome to this beautiful admin panel.</p>
@stop

@section('css')
    <link rel="stylesheet" href="/css/admin_custom.css">
@stop

@section('js')
    <script> console.log('Hi!'); </script>
@stop
```
